4-POWER

Seventy years ago, an unknown place in the country pioneered in hydro-electric power generation. It was Sivasamudram, the year 190[illegible], and power generated was 4500, kw. This lead was maintained by Karnataka till recently.

The reorganisation of the State in 1956 greatly changed the power picture. The per capita consumption of power in old Mysore averaged 64 units which was reduced to 39 units with the addition of new areas.

The Second Plan earmarked 9 per cent of the outlay for power development and power availability went upto 1057.7 million kwh. from 747 million kwh. at the end of the First Plan. The Third Plan allocation was 27.9 per cent of the total outlay and raised the energy availability to 1914.3 million kwh. The giant Sharavathy Project came on the scene and the then Mysore State became power surplus. Per capita consumption soared to 55 units and the sale of power was netting Rs. 1,235 lakhs. The investment in the sector upto 1969 totalled about Rs. 162 crores since 1950-51.

Today, there are seven hydro electric projects with an installed capacity of 966.6 MW. They are : Shivasamudram (42 MW): Shimsha (19.2); Jog (120); Bhadra (33.2); Munirabad Left Bank (27); Tungabhadra (Karnataka portion 14.4) ; and Sharavathy 712.8 MW).

Due to delay in Procurement of power generation equipment, the completion of the Sharavathy project is expected only during the next Plan. The Fourth Plan period was, as a result, marked by power famine. This shortage was worsened by two successive failure of rains, and the State had to impose a 25 per cent power cut last year. The achievement during the Fourth Plan is scaled down to 967 MW as against a target of 1,145 MW. The anticipated expenditure on power generation is placed at Rs. 29 crores.

4-POWER

The Kalinadi project taken up in 1972-73 assumes great importance for the State's future development. Financed by the Centre outside the State Plan, the first stage is to produce 910 MW. Of the total cost of Rs. 126 crores by the end of March 1974, Rs. 40 crores would have been spent.

At 60 per cent load factory, the total hydro-energy potential in Karnataka is placed at 5,500 MW. So far only one fifth of this has been harnessed. Not endowed with other energy sources, an all-out effort is proposed to be made to use this potential in the fifth plan

Even with the creation of 2363 MW of installed capacity and power availability of 7888 million units, the demand at the end of Fifth Plan is anticipated to far exceed the supply. The per capita annual consumption at this level may go up to 212 units.

Six schemes Sharavathy Stage III, Kali stage I, Linganmakki Power House Varahi, Bedthi and Sharavathy Tail race–have been taken up for execution during the Plan. Advance action will be initiated on seven other schemes to meet the energy demands in 1981-84.

The Plan outlay, in view of these manifold objectives, has to be very large. About Rs. 300 crores has been indicated as the required outlay.

ABOLISH INTEREST ON ME CESS

Sir,

It has been published in several dailies about the Press Conference held by the new Municipal Commissioner, Sri S. Swatantra Rao. The merchants and the trading circles are very thankful to the Municipal Commissioner for his quick decision to stopping the collection of storage charges in respect of goods received for storage on general holidays and Sundays which is in vouge for a long time. Indeed, he has given a great relief tothe merchant class and also to the general consumers who are the ultimate victims of purchasing materials at enhanced rates.

Similarly, the ratepayers of Mysore would be very thankful to the Municipal Commissioner, if he would take a quick decision in consultation with the present Municipal Administrator for stopping the unjust levy and collection of interest on the Municipal dues which is not properly established under law and also the unjust collection of interest on the several cesses such as, Education Cess, Library Cess and Health Cess.

The unjust collection of interest which is not warranted by law and is being forcibly collected may be ordered to be credited towards the municipal dues of the respective ratepayers' future accounts.

BRING ABOUT DUE SOCIAL CHANGES

Hegde's Call To Journalists

Mysore, Dec. 29

The task of bringing about the required change in the society was on the journalists, Finance and Information Minister M. Y. Ghorpade said here this morning.

Inaugurating the two-day conference of the Karnataka Working Journalists, he said that the role of journalists in the modern society was becoming more important. Their task was becoming more responsible than that of the Government. They had the task of not only focussing the problems of the people, but also they should bring about the necessary changes in the society.

The freedom enjoyed by the Press in India was greater than in any other country. If this freedom had to be protected, the newspapers and the journalists should bear in mind their equal responsibility, he said.

Sri Ghorpade said that in view of the increasing responsibility of the journalists, they should have specialised training. Universities should give attention to this, he suggested.

Referring to the role of small newspapers, the Minister said they had to improve their quality so that they could compete well with big newspapers. The quality and talent in the small newspapers should be superior to the big newspapers, the Minister said.

As regards the problems of journalists, he assured to take up the matter with the concerned Union Ministers. He agreed that the Information Department had to be improved and sought the co operation of pressmen in tackling its problems.

State Association President T. Dasappa presided over the function. District Jounalists Association President S. Pattabhiraman welcomed. State Association General Secretary N. Ajundev read messages. District Association Secretary K. Ramanna proposed a vote of thanks.

At the outset, the conference mourned the deaths of vetern journalists T. T. Sharma, Siddavanahalli Krishnasharma, P.R Hiremat and N. V. Gundappa.

GOVERNOR'S STRESS ON PRIMARY EDN.

Mysore Jan. 3

Governor Mohanlal Sukhadia yesterday underlined the importance of primary and secondary education and called upon voluntary agencies and philonthropists to play a greater role.

Inaugurating the Harnarain Somani T. C. H. College at the Institute of Education, he said no doubt that higher learning was of paramount importance. But we should not forget that such higher learning could become fruitful only if proper foundation was firmly laid at an earlier stage.

However, he said, the reason why primary education had not received its due share was because of lack of sufficient resources. Government alone could not solve the problem. Private educational effort must play a greater part, Sri Sukhadia said.

Industries Minister S.M. Krishna, who was the chief guest, expressed concern at the lack of discipline and said this was mainly responsible for all the troubles we were seeing in the society today. Some times one felt that it might become even necessary for a " limited arrangement " to bring in discipline.

Here, he said the teachers had to play a vital role in instilling this sense of discipline among the youth.

Sri G. N. Somani welcomed the gathering. Sri K. S. Suryanarayana Rao read a report. Messrs N. K. Somani and Vittal Das Bhai spoke. Sri V. O. Somani proposed a vote of thanks.

Mysore, Jan. 3

The Kannada Chaluvaligars yesterday presented a memorandum to President Giri at the Government House requesting him to use his powers and implement the Mahajan report immediately, introduce President's rule in Maharashtra and appoint a permanent judicial board for setting river disputes. They also pointed out the atrocities committed in Maharashtra on Kannadigas. The President is stated to have assured that he would see no injustice was caused to the State. The delegation was led by Chaluvaligars' Kendra Samithi Vice-President Thayur Vittala Murthy.

The Chaluvaligars in a statement have urged the Municipal Commissioner to drop the proposed levy of octroi on fruits, vegetables, pulses, potatoes, onions, meat and eggs.

President On Task Of Youth

Mysore Jan. 3

The present generation had an immense responsibility to see that the most vulnerable and the weakest sections were assured the basic economic wherewithal, President Giri said yesterday.

Inaugurating the H. C. Dasappa Institute of Public Affairs, he said: "If we do not usher in an egalitarian order of society through peaceful means, I am afraid, things may assume such proportions when the change would result through compulsion and force".

Sri Giri recalled his association with late Dasappa and paid rich tributes to him and to his wife, Smt. Yashodharamma.

Governor Sukhadia, who presided, said that it was necessary that the student unrest which was a sign of their exuberant energies should be channelised along constructive lines.

Sri B. R. Pranesha Rao welcomed and Sri P. M. Chikkaboriah read messages. Sri A. Ramanna proposed a vote of thanks.

Gross Injustice In Varsity Administration

CHARGES SENATE MEMBER

Mysore, Jan. 4

Sri K. N. Shivalingiah, a member of the Mysore University Senate, today levelled a dozen charges against the Mysore University administration alleging 'gross injustice' during the last one year.

Speaking at a press conference, he said that almost all the cases relating to the forged markscards had failed as the administration had not furnished all facts to the police.

Only three names were predominant in almost all the committees constituted, the board of appointments preferred second class master degree holders to first class master degree holders for appointments and a reader in Indology had been continued as Maharaja's College Warden for the last eight years as against the two years' term, he said.

Sri Shivalingiah charged that a Deputy Librarian had given three different dates of birth and the university had not taken any action against this "serious offence" as "he happened to be the close relative of the Vice-Chancellor".

The University had overlooked the seniority of a Telugu lecturer and appointed a junior in his place as reader. There was a similar instance in the appointment of a Reader in Psychology, he said.

The Senate member also alleged "favouritism" in the post-graduate course admissions.

He urged that the Pro-Chancellor should become the appelate authority and the Syndicate should have less powers.

MCF Under Liquidation

GOVT. URGED TO TAKE-OVER

Mysore Jan 5

The employees of the Mysore Chemicals and Fertilisers, Belagula, have urged theStateGovernment to stay immediately the winding up proceedings of the factory and acquire and run it in the national interest.

Messrs H.V. Giriyappa, Staff Association Vice-President, G. K. Ramaswamy, Secretary and A. Subramanya Iyer, Labour Association President told pressmen yesterday that the 35-year-old factory was in the process of liquidation following the High Court order of Dec. 14.

They alleged that due to continued mismanagement the factory was allowed to run under losses by a private firm which had taken over the factory from the Government. The closure of the factory had affected nearly 100 workers and their families.

State Opposed To New Panel

Chief Minister Devaraj Urs declared at Belgaum yesterday that Karnataka would never agree to a fresh commission of enquiry into its boundary dispute with Maharashtra, come what may.

Addressing a public meeting, he made it clear that it would not be true to say that Karnataka had rejected the Mahajan Commission award.

He said : "If Maharashtra does not want the award to be implemented, we have no objection to it. Let the status quo continue".

In a hard-hitting speech he categorically asserted that hisGovernment would not allow Belgaum to slip out of Karnataka under any circumstances. He bluntly told theMaharashtra Government to bury any illusion it had that it could take back the city to its fold.

He warned that if Maharashtrians continued to raise disputes on the basis of linguistic groups, "we too will have to think whether multi-lingusitic cities like Bombay can be left in the care of "Maharashtrians".

5-INDUSTRY

The beginning of modern industry in Karnataka could be traced to 1884, when a textile mill was set up. The generation of electricity in 1902 gave the State a head start in industrialisation.

"Industrialise or Perish" call given by Dr. M. Visveswaraiah set the pace for the industrialisation. Even as far back as 1920, there were as many as 29 major industrial concerns with an investment of Rs. 5 crores. Gold mining, Silk, Steel, Aircraft, Chemicals and Fertilisers, Sugar, Paper, to mention only a few, had become major industries in the State prior to the World War II. It had blazed a trial by setting up a wide range of public sector industries. It was also a pioneer in rural industrialisation, thanks to the foresight of Dr. Visweswaraiah.

It is estimated that a sum of Rs, 42.17 crores has been invested in the industrial sector, as part of the State's Plan investment, from 1951-52 to 1973-74.

There were 9,657 industrial establishments in the State, excluding Hindustan Aeronautics and other defence units in 1969. This represent a six-fold increase, from 1,600 units in 1956. The capital investment in these units amounted to Rs. 318 crores and over 2.8 lakh persons were employed by them.

The number of small-scale units have more than doubled, from 2,300 in 1963 to 6,600 in 1970.

The capital city of Bangalore has the largest concentration of Central, State and private industries. Almost 40 per cent of the industries, with a third of the capital investment, are here. The industrial units are very unevenly distributed in the State. Bangalore, Dharwar, South Kanara and Belgaum districts account for 63 per cent of the total number of industrial units. Up to 1968-69 Central investment in public undertakings in the State totalled Rs. 78.4 crores.

An idea of the wide industrial base laid in Karnataka could be had from the production figures of some important industries. Iron production has risen from 62,000 tonnes in 1956 to 1.45 lakh tonnes in 1971-72. Sugar output has increased six-times, from 48,000 tonnes to 2.43 lakh tonnes. Paper production has gone up by 10 times to reach 73,000 tonnes. Cement has registered a 250 per cent increase.

Eleven districts in the State have been declared as industrially backward districts. New industries in these districts are entitled to a wide variety of concessions and incentives.

Three State-owned institutions are in the vanguard of industrialisation. They are : (i) Karnataka State Industrial Investment and Development Corporation; (ii) Karnataka Industrial Areas Development Board; and (iii) Karnataka State Financial Corporation.

The KSIIDC, upto January 1973, had sanctioned loans to the tune of Rs. 1, 106.37 lakhs. 71 projects have received its assistance. The total capital mobilised as a result of its assistance exceeds Rs. 14, 107 lakhs.

The Karnataka Industrial Areas Development Board is engaged in ensuring planned growth of industrial areas. It has acquired 10,568 acres; of this, 63.5 per cent is in backward areas.

PM WARNS AGAINST VIOLENCE

Prime Minister Indira Gandhi yesterday condemned communalism, violence and disruption of communications and said such activities would not only weaken the nation but " finish it ".

Laying the foundation-stone of a 25,000-spindle spinning mill atBarabanki, near Lucknow,he said that wage-hike had proved to be a misnomer. A rise in wages did not solve the problems, for even the well-paid classes were today indulging in work stoppages. Therefore what was needed today was a change in the basic structure.

Smt. Gandhi referred to the present difficulties, shortages of essential commodities and rising prices and said confidently that the country would be out of woods and the crisis would be resolved. If the people stood by the Government, the new situations in 1974 could be met with great confidence, she said.

The Prime Minister called for a "broad unity of masses" to effectively deal with the challenge of certain forces out to jeopardise production. She warned against the activities of communal and reactionary elements and certain political parties, which were "bent on creating chaos and confusion in the country to subserve their narrow political ends".

INCENTIVE PRIZES TO CIVIC STAFF

Commissioner's New Proposals

Mysore Jan. 10

A series of measures to improve the beauty and cleanliness of the city and to tone up Municipal Administration were announced by Municipal Commissioner S. Swatantra Rao this morning.

Speaking at a press conference, he announced institution of three first prizes of Rs. 500, Rs. 300 and Rs. 200 as an incentive to the best men Poura Karmikas, women Poura Karmikas, Junior Health Inspectors, Conservency Peons, andRevenue Inspectors and a gold and a silver medal to two best Senior Health Inspectors.

The criteria for selecting the persons for the prizes would be non-participation in strikes, good attendance, neat dress, obedience and efficiency in their work. A committee of officials would be formed for making the selections, he said.

The total expenditure for these prizes would not exceed Rs. 5,000, he added.

The Commissioner said the Municipal administration was not as dynamic as it should be, particularly to cope up with the changing times and needs of the people.

It was also proposed to celebrate Poura Karmikas' Day with cultural and sports programmes for the Poura Karmikas. Free residential medical facilities would also be provided to them.

Public could bring their grievances to the notice of the Municipality in future by making use of a Complaint Box to be installed in each divisional office. No revenue stamp needed to be affixed to the complaints. The complaints would be collected every day at 5 p.m. by a Senior Health Inspector, Sri Swatantra Rao said.

Intensive fortnight cleaning camps would be conducted in each mohalla beginning from Jan. 16 in Lashkar Mohalla and an emergency garden force with 100 people would be organised to improve all the public parks, the Municipal Commissioner said.

Ill-Treatment Of Poura Karmikas

Mysore Jan. 12

Municipal Commissioner S. Swatantra Rao has warned officials of the Municipal Health Section against abusing the Poura Karmikas in the name of their caste or community.

In a circular issued yesterday, he said that some such instances had come to his notice. This was highly unpordanable and against the cherished policies of the Government. He has strictly warned the officials supervising the work of Poura Karmikas not to indulge in such anti-social activities. The minimum punishment that would be given to any such official would be not only suspension but also legal proceedings would be instituted against him under the provisions of the Anti-Untouchability Act, he warned.

The State Government is seriously considering a proposal to revive the Mysore Chemicals and Fertilisers at Belagola, Industries Minister S. M. Krishna said yesterday.

No Change In State's Border Stand

DEFENDS MP

Mysore, Jan. 12

Sri Tulsidas Dasappa, MP, today supported the stand taken by Chief Minister Devaraj Urs on the Karnataka - Maharashtra boundary dispute.

Addressing a press conference, he made it clear that the Government was not against the implementation of the Mahajan Commission report. What it was saying was that if the Mahajan report was totally rejected, the status quo should be maintained.

"We have not budged an inch from our original stand. We are bound by the resolution of our Legislature", Sri Tulsidas said and added but when it came to question of resolving the issue and the Centre called for the guidance by both the parties, we had to be reasonable.

He strongly opposed appointment of any new commission for resolving the dispute as "it will serve no purpose". The question of appointing another commission did not arise at all, he said.

One of the factors which had contributed to the present developments on the boundary issue was "the indifference of the previous Governments (headed by Sri Nijalingappa and Sri Veerendra Patil) not to press for immediate implementation of Mahajan report". the Congress MP charged.

Any talks between Karnataka and Maharashtra would exclude Belgaum from being a subject matter of dispute on the grounds that relative majority in cosmopolitan cities was untenable, he said.

Similarly, the issue of Kasargod could not be linked with Maharastra. The State's stand was on a different footing, Sri Tulsidas added.

Urging for early settlement of the boundary dispute, he said a stalemate or a state of indecision would hamper the right of citizenship of the citizens to stay anywhere they liked and also affect development in areas of dispute.

He suggested setting up of a Linguistic Minorities Commission by the Centre with statutory powers to safeguard the linguistic minorities.

KNOW MORE ABOUT THE POTATO

Potato is a rich source of protein and is very nutritious. It has now been scientifically established that potato provides most of the essential body-building substances. It has high digestibility and its starch ranks higher in quality than that of cereals. Besides it is a rich source of Farbohydrates.

Potato is one of the major food crops in the world—next only to rice, wheat and maize. Even in the advanced countries of the world more than 50 to 64 per cent of the daily diet of the people is potato and its products. But in India, the consumption of potato is very low—even less than 13kg per capita per annum, while in Germany it is about 174 kgs.

The area under potato cultivation in India is very small—only 0.5 per cent as against 20 to 40 per cent of the cultivable area in several Western countries. In 1971-72, potato production was about 48 lakh tonnes in 5 lakh hectares.

Potato can be grown almost all over India. Some varieties of potato with good agricultural practices can yield over 500 quintals per hectare in 90 to 120 days. Besides, there is the advantage that the crop can be harvested and consumed any time after it is 60 days old.

For the improvement of potato and its cultivation in India, the Central Potato Research Institute in Simla, is conducting research on various aspects of the crop. An outstanding achievement of the Institute is the evolution of new varieties.

A number of other varieties are to be released shortly. Some of these may give a yield upto 200 quintals per hectare in 60 days. The evolution of "Seed Plot Technique" has revolutionized potato cultivation. It has now become possible to obtain high yields by growing healthy seed crops in the plains and to do away with dependence on seeds from hills. By adopting proper crop rotation and improved agricultural practices, income from potato crops can go upto Rs. 3,500 per hectare.

Potato has also the advantage that it can be used in a number of ways-as a vegetable and in the form of many other preparations. Combined with cereals as a flour or in mashed state, it not only imparts taste but improves quality.

Legislation To Protect Public Places, CM

Mysore, Jan 16

Chief Minister Devaraj Urs today favoured enacting suitable legislation to protect public parks, gardens and open space in cities from being used for construction of buildings and commercial houses.

Inaugurating the new Gujari market in the Wellington Lodge premises, Sri Urs underlined the need for mainting the beauty and cleanliness of the cities with an aesthetic sense. He referred to the gradual acquisition and sale of open spaces in important places like Sadashiva Nagar, Bangalore, and suggested steps to preserve such open areas.

He asked Municipal Administration Minister Sri D. K. Naiker who presided over the function to bring in suitable legislation for the purpose as soon as possible. Any acquisition or sale of such public places should hence forth come before the legislature, Sri Urs said.

The Chief Minister suggested to Horticultural Department to undertake a scheme for planting trees in layouts formed by the Trust Boards or Municipalities.

Bangalore had become congested and Mysore should not be allowed to grow on such lines. It should be maintained as a clean and beatiful city in India as desired by the Prime Minister, he said.

He said the Gujari proposal had become a reality due to the personal interest taken by Sri Azeez Sait, when he was the Minister.

Sri Naiker expressed his happiness over providing facilities to the petty shopkeepers who were denied social status.

Sri Azeez Sait, who was the chief guest, appealed to the Chief Minister to see that other schemes like the exhibition complex, mofussil bus stand, city complex were implemented soon.

New Stand On Border Illogical

CRITICISES GURUPADASWAMY

Mysore Jan. 17

The latest shift in the stand taken by the State Government on Karnataka-Maharashtra boundary dispute was illogical and unjustified, Sri M. S. Gurupadaswamy, Congress (O) leader, said this morning.

Addressing a press conference, he said that if an opinion poll was taken in the State he was sure that overwhelming majority of people would support the Mahajan report. If they thought that by rejecting the Mahajan report they could hammer out a new solution that would not be possible and it would lead to bitterness and conflict between two regions, he warned.

He blamed the Centre for the present "mess" and urged the State Government to take a clear and categorical stand.

Sri Gurupadaswamy criticised the levy system and the ban on inter-district movement of paddy and suggested to the State Government to reasonably restructure the levy system and immediately lift the ban on inter-district movement of paddy.

The food distribution in the State had also collapsed, he said and expressed the fear that the conditions would be worse in the next 2-3 months. The consumers were paying high price for controlled commodities and there was no link in the price of commodities sold to consumers and the price given to producers, he said.

He opposed the setting up of Karnataka Food Corporation and said it was superfluous and totally unnecessary.

Expressing his reactions to the Maharashtra by-election results, the Congress (O) leader said: "A reverse flow seems to have started. Indira wave seems to have given way to anti-Indira wave. Perhaps Uttar Pradesh and Orissa will bring out definite pointers in this direction".

Although the Prime Minister had two months back assured that the economic situation would brighten within one month and promised virtually a good 1974, the new year had begun with all evil omens and had forebodings. 1974 was going to be a year of great tragedy, he said.

Unless there was some dramatic reversal in the policies of the Government, Sri Gurupadaswamy said the country would soon face two alternatives, either there would be a period of anarchy or a period of revolution.

Mysore, Jan. 17

Chief Minister Devaraj Urs suggested to the co-operative societies to set up jointly a cattle-feed plant in Mysore City to meet the shortage of cattle-feed.

Laying the foundation stone for the Veterinary Hospital building at Hinakal in Mysore Taluk, he said the shortage of milk was because that dairying had been undertaken as a subsidiary occupation. It should become a full-time job with proper attention to rare cattle.

Community Development Minister N. Rachaiah presided. Municipal Administration Minister D. K. Naiker inaugurated the veterinary hospital. Sri D. Jayadevaraje Urs, MLC, welcomed the gathering. Sri A. Papanna read a report. Sri N. Ranganath proposed a vote of thanks.

RISE IN RICE PRICE CONDEMNED

Mysore Jan. 17

Sri Srikanta Sharma, Joint Secretary, Hind Mazdoor Panchayat, Karnataka, has condemned the recent rise in the price of controlled rice by the Government from Rs. 1.32 to 1.75 per kg.

In a statement yesterday, he said that it was significant to note that the levy price of paddy was fixed at Rs. 80 per quintal, which would work out Rs. 1-20 per kg. of rice. The increase of rice price by 43 paise now was therefore "abnormal, irrational and unjustifiable".

Sri Sharma has called upon all the working class in the State to strongly resent against this rise and agitate for its reduction immediately.

More Taxes Likely, CM

Mysore, Jan. 18

Chief Minister Devaraj Urs indicated that water cess and other taxes might be increased to provide more funds for irrigation and power projects during the Fifth Plan in the State.

Distributing prizes at the Chunehanakatte cattle show in K. R. Nagar taluk on Wednesday, he said the Government would collect betterment levy after the completion of these irrigation projects.

He appealed to the mill-owners and merchants not to hoard paddy. He asked the farmers to surrender levy paddy volunatarily. Otherwise the Government might be forced to seize the hoarded stocks, he warned. Sri Urs said that fertilisers would be distributed on card basis from next year to farmers who gave levy paddy regularly.

Revenue Minister N. Hutchmasthi Gowda said a scheme was being prepared to renovate 4-5 temples in every taluk. He said there were over 35,000 temples in the State.

Vatal Condemns New Stand On Border

Mysore, Jan. 18

The latest stand of the State Government on the Mahajan report was "a stab in the back of the people of Karnataka", charged Kannada Chaluvaligars leader Vatal Nagaraj yesterday.

Now, Sri Urs and his partymen had started creating an opinion in favour of his individual stand. He had even failed to consult the Opposition parties unlike the previous State Governments, he said.

Breathe New Life Into Varsities

Says UGC Chairman

Mysore Jan. 21

Dr. George Jacob, Chairman, University Grants Commission, said yesterday that if the universities in the country had to be dynamic centres of light and learning, "we have to breathe a new life into them".

University education in the country today was at cross-roads. Questions were being asked in many quarters whether universities were serving the purpose for which they were set up. This question needed consideration, first, by teachers and next, by those who administer colleges and universities, he said.

Dr. Jacob said that on academic grounds for a considerably long time, students and teachers of universities would have to be proficient in English and the mother tongue. For national integration, the facility in a third language, Hindi, was also needed.

George Jacob, UGC Chairman, who delivered the convocation address also spoke a few sentences in Kannada.

Mystery in Village Mutt

Mysore, Jan. 29

Mystery surrounds a number of incidents happening in the Panchakshari Mutt in Thayur Village in Nanjangud taluk, about 20 miles from here.

According to the villagers, electric bulbs fall from their sockets, articles like clothes, vessels, money and bedding are displaced or hidden in the close-by well or in the hay-stack in the Mutt. But stranger than these things was the sudden gutting of the haystacks in the mutt stack-yard on Jan. 21. Two haystacks caught fire around mid-day. No sooner had the villagers put them out, the remaining four caught fire and were reduced to ashes. Then a portion of the Mutt itself caught fire and all the villagers joined together and put off the fire.

The villagers say these incidents are happening since about six months, because the "noble traditions of the Mutt including free distribution of food" have been neglected. But according to the relatives of the Mutt Swamiji, certain jealous people are working "Kutti Prayoga" against the Mutt and the incidents have been stopped since about three days.

Pressmen, who visited the village on Sunday saw heaps of ashes in the hay-stackyard of the Mutt and also villagers keeping water in vessels ready to extinguish any fresh 'fires'.

He assured all help from his mutt for the establishment of an institution at Udipi for teaching and spreading Madhwa philosophy.

Dr. P. Nagaraja Rao of Madras University spoke on the glory of Madhwa philosophy and said that Madhwa philosophy did not preach idealism. It preached duty with devotion.

Pandit Panduranga Galagali, who introduced the Swamijis, said the conference was an historical one because it was for the first time that about a dozen Acharyas had shared a common platform.

Fight Black Money Menace,

Mysore, Jan. 4

Sri K. Hanumanthaiya, MP, said on Saturday that controls were responsible for the spiralling of prices in the country. If the controls were removed the price of rice for example would go down at least by a rupee, he said.

Speaking at the function arranged to felicitate Sri A. Ramanna, journalist and freedom fighter, Sri Hanumanthaiya blamed the political parties in the country for depending upon black money and said that as long as this practice continued democracy would not grow on healthy lines. Therefore, this menace was as good a fight as the freedom struggle.

Paying tributes to Sri Ramanna, he said he would honour veteran freedom fighter and former Mintster T. Siddalingiah soon and also erect a memorial at Shivapura, to commemorate the historic 1937 satyagraha campaign.

The Pejawar Mutt Swamiji, who presided, expressed concern over the falling standards and said people were caught in the corrupt practices of merchants, politicians and administrators. Corruption was growing like the ten-headed Ravana. Unless bold measures were taken, it was difficult for the country to get out of the situation.

Sri Ramanna thanked for the honour. Sowcar T. Thimmappa welcomed the gathering. Sri Shanmukhaswamy read messages. Sri H. D. Tulsidas, MP, presented an address to Sri Ramanna. Messrs H. LETTER TO THE EDITOR :

Sanitary Conditions In Hotels

Sir,

It is very much to be regretted that of late the sanitary conditions in most of the hotels and other catering establishments in Mysore City are deteriorating. To cite a few instances, plates, cups and saucers used are of very inferior quality, and there is no habit of cleaning the used plates, saucers etc, in hot water before using them. There is no system of examination of the servers appointed in the hotels by the Health Department.

When I visited hotels casually a few days ago I noticed that many servers were having symptoms of VDR and skin troubles When I asked the management whether they were not being medically examined by the Municipal authorities, he replied that for the past many years there was no system and the Health department was simply issuing medical certificates after collecting required fees along with licence fees. If this is a fact it is much to be regretted. I request the Municipal authorities concerned to have very strict control over the sanitary conditions in the hotels in the interest of the public visiting the hotels daily.

Dr. Shivashankar.

NEED FOR REVOLUTION CITED

Mysore, Feb. 11

Former Municipal Administration Minister Sri B. Basavalingappa stressed the need for a revolution that would bring in a new social order in which the poor and the oppressed would hold seats of power.

Addressing a public meeting under the auspices of the Samajika Nyaya Horata Vedike here on Saturday, Sri Basavalingappa said that one such revolution would certainly come about if not today at least in the next ten years. He said the militancy of youth had become a reality and cited the Dalit Panthers and other such organisations which were deeply concerned about the exploitation and oppression of the downtrodden.

Sri Basavalingappa also said that anti-socialists within his own party and the press had raised a hue and cry over his statements made when he was a minister but they had never hailed his constructive actions.

Dr. U. R. Ananthamurthy, Kannada Novelist, said that if the country had to progress, the oppressed had to be given the opportunity of free thinking and the higher classes had to be freed from the shackles of traditional and outmoded beliefs.

Earlier Sri. M. Shivanna, convenor, welcomed. Sri Basavalingappa was taken in a procession before the commencement of the public meeting.

Scuffles, Walk-Outs In Parliament

Unprecedented scenes of scuffles, slogan-shouting and noisy walk-outs were witnessed on the opening day of the budget session of Parliament yesterday.

Perhaps for the first time in Parliamentary annals, the CPM and some other Opposition groups made concerted attempts to disrupt the President's address to the joint session.

As soon as the President rose to speak, CPM members including Sri Jyotirmoy Bosu rushed to the podium from where the President was addressing the House. Vigilant Congress members prevented the shouting members and along with the Watch and Ward Staff barricaded them. This led to scuffles for about 10 minutes after which the Opposition members staged a walk-out opposing President's speech.

The Jan Sangh and the Socialist Party members boycotted the joint session to protest against rising prices and " the abuse of official machinery and resources for Uttar Pradesh elections ".

Stern Action On Hoarders, Giri

President Giri said yesterday that the serious food situation had been aggravated by hoarding and speculation by unscrupulous traders and resorts to violence and bundhs and assured that the Government would deal firmly with hoarding and with attempts to interrupt production, movement and distribution.

Inaugurating the budget session of Parliament, he conceded that the expectation that the good khariff harvest last year would help stabilise prices had not materialised. This was partly due to internal inflationary situation, drought relief, plan investments, defence requirements which had necessitated deficit financing and international economic situation.

The President said that the economic difficulties and strikes, bundhs and unrest had slowed down the pace of the country's social and economic development. The rise in prices and scarcity of food articles was of prime concern to the people and the Government.

Sri Giri hinted at curb on internal consumption and said utmost economy in the use of oil products and "selective restraints" on demestic consumption of exportable goods are essential.

Interim Report On Poura Karmikas

Mysore, Feb. 22

The Committee on the Improvement of Living and Working Conditions of Sweepers and Scavengers in the State would submit its interim report to the Government in July this year, Committee Chairman I.P.D. Salappa told newsmen today.

Five persons of the 13-member committee are now visiting the city.

Although the population and area of Mysore City had increased, the number of Poura Karmikas in the Municipality had gone down from 900 in 1947 to 848 this year. A Poura Karmika had to cover more than a mile which was too much for him, they said.

They suggested starting of a credit co-operative society for the Poura Karmikas so that they could get loans on lesser interest rates and also a consumers' co-operative society.

Referring to exorbitant rates of interest paid by Poura Karmikas for loans from private money lenders, they said a Junior Health Inspector in the City Municipality was having transactions to the tune of Rs. 22,000 with Poura Karmikas.

On complaint from a lady Poura Karmika, they had witnessed Poura Karmikas being refused entry into a hotel in Chamaraja Road. The Commissioner had assured to take suitable action against the hotel. They hailed the Chamundeswari Seva Samiti proposal and also efforts of the Commissioner, Sri Swatantra Rao, to improve the Poura Karmikas' attendance.

The members suggested the Government to ban eating of carcass, a practice still prevalent among some Poura Karmikas, and said the Municipality should be made responsible for burying the dead animals.

Governor's Call For Austerity, Co-operation

Opposition Boycots Governor's Address

(From Our Correspondent)

Bangalore, Feb. 25

Governor Mohanlal Sukhadia today called for austerity and co-operation from all sections of people in Karnataka to overcome the difficulties the State was facing.

Warning of the difficult days ahead, the Governor said: "In the coming years we shall have to face a number of problems often due to causes over which we have no control. Austerity and co-operation of every section of people alone, and not violence and mutual recrimination, will help overcome our difficulties".

Reviewing the State's achievements during the past year, he said there was need for continued efforts to remove economic disparities between different sections of people, reduce regional imbalances and ensure rapid growth of the community as a whole. The economic challenges which we were facing today call for greater determination, Sri Sukhadia said.

Sir,

CITB's WONDERS

The recent announcement by the Chairman of the City Improvement Trust Board about the creation of 10,000 sites for allotment is awe inspiring. It would make a reader believe what wonders the CITB is attempting to achieve. There is, however, another aspect of the matter.

There is no doubt that there are literally hundreds of residents in the city who have for years after meeting all demands made on them by the CITB for allotment of sites and houses constructed by them are left in the lurch with no decent roads, no lights, no water, no proper drainage and no scavengers just because the CITB has not handed over the areas to the Municipal Council. In the meanwhile the latter even before occupation of the houses built by the CITB and the Housing Board demand and collect all Municipal taxes as due, that is as from residents of the city who enjoy all the benefits of municipal services. Appeals to the CMC for redress elicit an alibi obviously in accordance with facts as the CMC cannot incur maintenance expenditure when the assets themselves are not under their jurisdiction. Appeals to the CITB to expedite compliance with its part of obligations for which they have fully recompensed themselves fall on deaf ears.

It is a question if the CITB is not guilty of misuse and abuse of public funds when amounts collected by them are not expended on projects for which the collections were made in the first instance. Is there no way in which the CITB cannot be made to realise its responsibility?

Dalai Lama Urges Plebiscite In Tibet

Mysore, Mar. 11

" An unrestrained and free plebiscito in Tibet to know the wish of the people-whether they wish to continue under Chinese domination or opt for freedom-is always welcome" said the Dalai Lama at Bylakuppe, about 50 miles from here yesterday.

In an interview to pressmen, the Dalai Lama who had come down to participate in the Tibetan Upraising Day function at the Tibetan Settlement, explained the background for calling for such a plebiscite and said what was important was the wish of the people of Tibet.

Briefly analysing the situation in Tibet, he said the struggle of six million Tibetans against Chinese domination was not motivated by the quest for political freedom alone. The conditions in Tibet right now were far from being satisfactory. People in Tibet were not being given basic necessities of life. Though the food production in Tibet had increased considerably, many Tibetans were threatened with starvation.

The popular feeling in Tibet was against Chinese domination. This feeling, he said, was reflected even among the younger generation who were being educated under chinese indoctrination. "Even those Tibetan youth who are educated in China and who return to Tibet have realised the true situation and started resenting Chinese. So the continued struggle of Tibetans to end chinese domination and govern themselves is justified" he added.

Employment In Small Scale Sector

The Federation of Associations of small industries of India has drawn a 5-year Development Plan for the expansion of this vital sector in the economy and for using it as an instrument for the development of the backward areas of the country. In the absence of the details of the plan, it is difficult to make an informed comment on it.

But there will be no disagreement with the basic objectives behind it, namely, detailed investigations for exploring the possibility of setting up resource-based industries in backward districts and helping the small industrial units to adopt better technology through close liaison with the Council of Scientific and Industrial Research.

The 1956 Industrial Policy Resolution recognised the role of small scale industries in developing the country's economy. It laid emphasis on their acquiring sufficient vitality to be self-supporting. It also aimed at integration of their development with that of the large scale sector.

It is rightly emphasised that in the conditions of our economy where unemployment was the most disturbing problem, it was the small scale sector rather than the large scale sector which would help ease the situation.

REMARKABLE PROGRESS

The growth of small scale industries since the Second Plan has been described in some quarters as nothing short of a revolution. Measured in terms of the units established,, there is some justification for so describing the growth of this sector. At the end of 1965 the small scale units registered with the State Directorates of Industries numbered a little over one lakh four thousand.

By the end of 1972, the total had grown to over three lakh eighteen thousand. But this does not give the full picture Various estimates show that only about 50 per cent of the existing units are registered with the State Directorates of industries.

If the picture about the number of small scale units is unclear, more so are the statistics about the employment provided by it or its contribution to the national income. Definitions of small scale manufacturing vary from one agency to another.

For the Development Commissioner of Small Scale Industries, a small unit till now was one in which investment in plant and machinery did not exceed seven and a half lakh of rupees. This figure has recently been raised to ten lakhs

MODERATE POLLING IN KRISHNARAJA

Record Turnout In Asokapuram

Mysore, Mar. 18

Nearly 53 percent of the 73,705 voters exercised their franchise in the by-election to the Assembly from Krishnaraja constituency yesterday.

Out of 39,033 voters who cast their votes, 21,754 were men and 17,279 were women. The total number of men and women voters in the constituency is 38,566 and 35,139.

The heaviest polling was in Asokapuram, the area of Harijans, where the voting percentage ranged from 80 to 95.

Vanitha Sadana in Krishnamurthypuram, attached to the Asokapuram voters, recorded the highest percentage where out of 583 voters 553 exercised their franchise, a percentage of 93.

Impatient voters in some booths were reported to have snatched ballot papers from the polling officials in the booth and damaged them.

In areas like Chamundipuram, Krishnamurthypuram and Vidyaranyapuram, where the electorate predominantly belongs to the educated class, the turnout was poor. In some booths the percentage was as low as 30 to 35.

Change States' Leadership

MPs' Demand

Bangalore, Mar. 20

Sri S.B. Patil and Sri K. Lakkappa, two prominent Congress MPs of the State, yesterday demanded a "change in the leadership" of the Karnataka Government.

They said that the performance of the Ministry had been reflected in the three successive Assembly by-election results where the party had got licked at the hands of the Old Congress.

Blaming the leadership of both the party and the Government for the debacle, the two MPs demanded revamping of the Government and reorganisation of the KPCC.

They said that along with the "likeminded MPs" they would meet the Prime Minister and the Congress President by the end of this month to ask them for a change in leadership.

The two MPs said it was most surprising that the Congress should have been defeated so badly in a district which represented by four Ministers in the Cabinet and by several partymen in various State-level committees.

The defeat of the party in the Krishnaraja by-election is also understood to have figured in the meeting of the Legislature Congress Party yesterday.

He said he would make it his life's mission against manoeuvres of these vested interests to disregard local talent. He said of the 72 industries proposed to be set up in the district, 52 would be located around the city.

While thanking the voters and the party workers for their co-operation during the election, Sri Srinivasa Rao charged that certain vested interests were mainly responsible for his defeat. He was happy that labour and middle class stood by him.

Management, Labour Urged To Co-operate

Mysore, Mar. 25

Chief Minister Devaraj Urs yesterday called upon management and labour to work in hormony in order to increase production.

Laying the foundation stone for the Rs. 21 crore Vikrant Tyres Limited, a joint sector industry, Sri Urs said Indian labour had failed to recognise the need toincrease production. Though the labour laws were most progressive, labour seemed to look upon them as a means of wresting greater benefits for themselves.

Sri Urs said the multiplicity of trade unions was the main cause of inter-union rivalry, which let to strikes and ultimately short fall in production

In many socialist countries, Sri Urs said, labour was not allowed to strike work; but disputes and demands were settled through negotiation. Indion labour should be persuaded to accep. negotiation as the best way to settle disputes.

He said a number of industries would be set up around the city from one end of the T. Narasipur-Mysore Road to the other end of the Mysore-Hunsur Road. If simultaneously the Mysore-Bangalore rail line was converted into broad gauge, it would give a fillip to the industrialisation of Mysore city.

Presiding over the function, Industries Minister S. M. Krishna suggested that preference should be given to local people in employment. He also suggested to enterpreuners to plan ancillary units to the tyre factory.

Sri M. D. Shivananjappa, chairman of the company, in his welcome address, said that the industry would go into production in September.

Sri R. B. Jesudasan, managing director of the company, read a report. General Naronha, executive director, proposed a vote of thanks.

3RD CLASS TO GO FROM APRIL

Third class, which for over a century of the Indian Railways, has been the symbol of the common man, comes to an end on April 1. It will get an elevated nomenclature–Second class.

The change will be only in the name as no additional facilities are proposed to the new second class.

Silk and Karnataka

IN KARNATAKA, STAGE IS SET FOR A MAJOR PUSH FORWARD IN THE FIELD OF SERICULTURE. THIS LABOUR INTENSIVE INDUSTRY CAN HELP SMALL AND MARGINAL FARMERS TO SUPPLEMENT THEIR INCOMES SUBSTANTIALLY AND THE COUNTRY TO EARN FOREIGN EXCHANGE.

Karnataka accounts for 80 per cent of the total production of Mulberry Silk in India and has always been famous for its Silk and Silk Products. During the Fourth Plan period, the annual production of Silk in the State rose from 14 Lakh Kgs. to 30 Lakh Kgs. A major break-through in Sericultural Technology has been the successful introduction of bi-voltine hybrid Silk-worm races. They yield a much larger production and Silk that comes to international standards. An ambitious programme to double the Silk Production over a ten year **period**, has been initiated.

PM Asks People To Resist Violence

Prime Minister Indira Gandhi yesterday warned the nation to be on guard against the attempts of unprincipled alliance of the extreme Right and extreme Left to topple her Government and create chaos and anarchy.

Addressing a public meeting at Vijayawada, she said that Marxists and the Rightists were combining to create chaos and instability. It was the duty of all right thinking Indians—whatever their profession or language might be--to think deeply and find out in what direction the disruptionists were taking the country.

"If public opinion was roused these people will not be able to indulge in violence and destruction. This is a time for unity, for discipline for determined action", she said.

Referring to those who were now thinking of launching "peaceful" agitations, Smt. Gandhi said their intentions were not relevant. It was a fact of life that the so-called peaceful agitations tended to end in violence.

Although a criminal chargesheet had been filed against the Librarian and the Warden, they had not been suspended yet. MORE INDUSTRIES AROUND MYSORE

Mysore, April 12

Entrepreneurs had discovered the industrial potentialities of Mysore City. It was going to "explode" with a number of industries in the near future, Sri C. S. Seshadri, Managing Director, State Financial Corporation, said yesterday.

Addressing the members of the District Small Scale Industries Association, he called upon the local entrepreneurs not to lag behind the outsiders in setting up new ventures in Mysore.

He offered to meet 50 per cent of the feasibility study cost of any small or medium sized industry proposed to be put up by a Kannadiga. The Corporation would meet the remaining 50 per cent also when the industry is set up, Sri Seshadri said.

Sri M. D. Shivananjappa, Chairman, State Industrial Investment and Development Corporation, said that he was glad Mysore was developing as an industrial place now. The response from industralists for setting up new industries in Mysore with the declaration of the District as the most backward had been good.

As a result, number of new projects including a yeast manufacturing project, a spinning mill, a 200-ton paper mill, a mini-steel plant and a mini-paper mill would come up soon here, he said.

He said the State was facing power-famine due to delay in implementation of the Kalinadi project. With the availability of necessary power in 1977, when the project was expected to be commissioned, more power-based industries could be started.

Sri Shivananjappa urged for a State policy for allotment of alcohol for chemical industries on priority basis.

Association Secretary B. N. Aradnya welcomed the gathering. Vice-President R. Vasudeva Murthy proposed a vote of thanks.

Role Of Small Newspapers

Minister's Stress

Mysore, April 15

Small newspapers should get greater encouragement both from the public and the Government, Community Development and Social Welfare Minister N. Rachiah said here on Saturday.

Addressing the members of the Mysore City Newspapers Editors' Association, he said the small newspapers had a greater role to play particularly now when the country was facing a number of problems. If people should be made aware of the real happenings and if poverty and untouchability should be eradicated, newspapers should play an important role, he said.

The Minister said the nation was on the threshold of a new landmark. During the past 25 years, people had become aware of their rights. While on the one hand population was increasing on the other problems were also growing. These problems could not be solved by violence and talk of revolution. We had to behave as responsible citizens of a democratic country, he said.

Sri Rachiah assured to help the small newspapers by tring to get the required newsprint and more advertisements from the Government.

Welcoming the chief guest, Association President M. N. Thimmiah appealed to the Minister to get allotment of newsprint to small newspapers from the paper mills near Mysore, exempt octroi and excise for newsprint and release more advertisements from the Government.

Sri Agaram Rangiah proposed a vote of thanks.

New Pattern In People's Struggle, JP

A new pattern of people's struggle against corruption and injustice was emerging fast, Sri Jayaprakash Narayan, who has been unanimously elected President of the new organisation—"Citizens for Democracy"—said at Delhi yesterday.

In his concluding speech at the All-India Conference of Citizens forDemocracy, he appealed to the students and youth in the country not to worry about the change in Ministry or dissolution of State Assemblies but create such a power that nobody who guide the destiny should be able to indulge in corruption and injustice.

The conference adopted an action programme for this year under which the organisation will put before the people an alternative to the present electoral system and strive for free and fair elections.

In its constitution, the organisation, said it shall not be a political party nor it will be a supporter or opponent of any political party. Membership will be open to every adult who is in general agreement with the aims and objects of the organisation, provided he is not an office-bearer of any political party.

READERS' FORUM:

SOCIAL BOYCOTT OF STRIKERS

Sir,

Now a days, strikes are being resorted to by men in the essential services on flimsy reasons. The difficulties of the public can never be imagined by those who resort to strike or by the Government.

Since the Government's is helpless and cannot help the public on such occassions, I feel social boycott of strikers will be the proper way to make them avoid paralysing essential services.

In these hard days, no reason, whether small or big, should be taken as an excuse by the workers to paralyse public life. If irresponsible workers do not heed to reason, social boycott must be declared against them by the public. Drastic measures are necessary to meet serious situations created by striking workers.

The strike by the KSRTC workers on April 13 in the city created lot of inconveniences to the public. Instead workers resorting to strike, such incidents as reportedly took place at the bus stand should be left to be investigated by competent people or a committee representing the public, officials and representatives of the workers and the problem should be solved.

Workshop Employees' Strike "Illegal"

Mysore, April 17

He released a press note issued by the Chief Public Relations Officer, Madras, which said the promotion of an employee, against which the workers are on strike, was a temporary one and had been made in accordance with rules and procedures. What the employees were objecting to was that a man from Perambur Workshops should not come to Mysore Workshops and the promotion should be only from those belonging to Mysore Workshops. This was a dangerous trend. If this was acceded to, it would lead to regional tension, in a composite railway like the Southern Railway.

The leaders of the strikers had also been told that the present arrangement was not final and selection would be held within a month to make permanent arrangement.

Legislative Council Deputy Chairman T.N. Narasimha Murthy, in a telegram to Railway Minister L. N. Misra and the Southern Railway General Manager, has urged them to immediately intervene and bring about a settlement.

Baha'i Election

IT IS YOUR PRIVILEGE, YOUR OBILIGATION, AND YOUR RESPONSIBILITY AS A BAHA'I TO ELECT YOUR OWN LOCAL SPIRITUAL ASSEMBLY

Baha'i Elections are unique in their emphasis firstly on the spiritual and moral capacity of those to be elected.

Both Abdu'l Baha and the Guardian have given guidance on the qualifications to be looked for so far as the election of assemblies is concerned.

Baha'i electors therefore have to consider the character and capacity of those to be elected; no other considerations apply. Consequently there are no lists of nominations, no sections or parties and no canvassing in Baha'i elections.

Elections of Local Spiritual Assemblies, take place all over the world on April 21st (between, after sunset of April 20th and before sunset of April 21st). Only communities of nine members or more are eligible to elect their Local Spiritual Assembly.

Friends record their votes in a prayerful atmosphere. Those unable to attend may however send their votes by post and for this purpose it is customary to send out ballot papers in advance. When voting for a Local Spiritual Assembly freinds must vote for nine members.

Tellers are nominated at the meeting.

Local Spiritual Assembly members are chosen by pluarality vote, whilst the officers of the Assembly are by majority vote.

The Local Spiritual Assembly is responsible for conducting all elections held in its community, for arranging that a chairman is in-charge of the meeting and that everything is done correctly.

Finally, it is the sacred duty of every declared believer of 21 years and above to take part conscientiously and prayerfully in the election of his own Assembly and also to vote only in favour of those who he is conscientiously convinced are the most worthy candidates.

"In this day, Assemblies of consultation are of the greatest importance and a vital necessity. obedience unto them is essential and obligatory. The members thereof must take counsel together in such wise that no occasion for ill-feeling or discord may arise. This can be attained when every member expresseth with absolute freedom his own opinion and setteth forth his argument. Should anyone oppose, he must on no account feel hurt, for not until matters are fully discussed can the right way be revealed. The shining spark of truth commeth forth only after the clash of differing opinions. If, after discussion, a decision be carried unanimously, well and good, but if the Lord forbid, differences of opinion should arise, a majority of voices must prevail."

The Believers in Mysore are all requested to participate in Election on 21st April 1974 from 4 to 6 p.m. Those Baha'is unable to attend are requested to send their votes in a closed envelope with their name and address on the envelope only. Ballot should not identify the voter. Your votes should reach Bahai Institute before Sunday 21st April, 6 p.m.

The Education Minister, speaking to newsmen appealed to the teachers to return to work. "The Government has always been sympathetic towards their demands and has done the best in the circumstances. I hope good sense will prevail on them," he said.

Appeal to Writers

Mysore, April 22

An appeal to Modern writers and artistes to shelve their negative attitude of opposing tradition bound social values and instead, do some constructive work for the betterment of society which had been continually exploited by the priestly class was made by Dr. K. V. Puttappa, noted kannada poet here on saturday.

Inaugurating the conference of Karnataka Writers' and Artistes' Union Dr. Puttappa said that in every country the fight against the class which were the mantle of priestlihood (Purohitashahi), was going on for years.

In our country we had allowed this class to wield their influence over others through wrong intrepretations of scriptures like the vedas, upanishads and Bhagavad gita.

At the same time it would be wrong on the part of modern writers to totally reject these works, Dr. Puttappa said and added, they should study them deeply and give proper intrepretations to suit our present society and thus mould the public opinion towards creation of a healthy society.

Dr. Puttappa also said that it was unfortunate that the news papers and even the All India Radio were sticking to the path of moderation to the extent of fearing contraversies. Some of the newspapers were tending to become yellow, he added.

Referring to the statement of former Minster Basavalingappa regarding Kannada literature Dr. Puttappa said most of world literature was fodder. Even in Kannada it was true that nearly 75 per cent of literature was fodder. "This is not showing Disrespect to any of our authors but self-criticism", he added.

Dr. Puttappa also advised the writers not to confine their minds to narrow parochial and linguistic bias.

Earlier Prof Chandrasekhara Patil welcomed. Dr. G. S. Shivarudrappa presided. Dr. Prabhushankar spoke and Prof Siddalinga Pattana Setty proposed a vote of thanks.

SUPPORT TO TEACHERS

Mysore, April 22

Sri M. Sathyanarayana Rao, MLC and President, Mysore University Private College Teachers' Association, has appealed to the Chief and Education Ministers to concede the legitimate demands of secondary school teachers, who are on "boycott evaluation" agitation in Bangalore for four days now, before things went out of hand and the situation further aggravated by teachers of junior and first grade colleges joining their secondary school brethren.

In a statement issued here today, Sri Rao said that the agitation had been precipitated more by lack of communication and understanding between teachers' representatives and the Government than with the motive on the part of teachers to make paltry or insignificant gains. Teachers from pre-primary to collegiate levels were agitating for years now over the non-implementation of many Government orders on many aspects covering their service conditions and emoluments besides undue delays in considering some of their pressing problems.

He also suggested to the Government to convene immediately a meeting of teachers' representatives and concerned departmental officers under the chairmanship of the Education Minister with a view to finding out ways and means of resolving the more important and immediate problems of teachers and create a proper climate for the smooth running of educational institutions as they reopened in May and June this year.

The executive committee of the MUPCTA is meeting next week to consider the situation arising out of the secondary teachers' agitation and also to decide upon the steps the college teachers might have to take for the redressal of their own grievances, the statement said.

TEACHERS MORCHA OPPOSED

Mysore, April 23

Sri T. V. Srinivasa Rao, Mysore University Senate Member, has strongly criticised the proposed silent procession in Bangalore to protest against poverty and corruption by "some college teachers under the banner of a political party".

In astatement yesterday,he has said that merely taking out a procession under the aegis of a party would not end corruption or poverty.

"If the college teachers had rejected the UGC pay scale recommendations, several other benefits like allowance for setting question papers, valuing answer papers, they would have perhaps justified their protest against corruption and poverty" Sri Rao added".

"It is surprising why these teachers do not make an issue and fight against the disparity in the pay scales of primary and secondary teachers and that of college teachers. I also wonder why they have turned a blind eye to the continuing exploitation of students by teachers who run private tuitions publicly'.

Sri Rao said that people would start disrespecting teachers if they tried to cheat them by creating a new class if they protested without a justifiable cause disergarding socialistic principles.

STRIKE SUSPENDED

Vishnu's Narasimha Avatar

Mysore, April 23

It is commonly thought that Mahavishnu's Avatar means his coming down to earth assuming the particular form, such as Rama, Krishna, Narasimha, etc. But, actually, Mahavishnu existed in those forms even before the Avataras, as is evidenced by references in the Vedas and the Upanishads. The Avatar only meant the manifestation of Vishnu in the particular form on the appropriate occasion, said Sri S. Rangachar, retired Reader in Sanskrit, Mysore University.

Speaking at the Sarva Bhasha Saraswati Sangha on Narasimhavatara, he pointed out that long before the birth of Sri Rama as king Dasaratha's son, Valmiki was asked to repeat Rama Nama as the Taraka Mantra, which he did and gained divine knowledge.

Earlier, after Vishnu Sahasranama Parayana, Prof. M. V. Jambunathan, President of the Sangha welcomed the gathering. Sri B. Narasimhiah proposed a vote of thanks.

THE STORY OF SILK

The story of Indian silk dates back to the historical past. Even today, India is one of the five leading producers of silk in the world and holds a position of monopoly in the silk world regarding production of Muga silk.

Silk industry plays an important role in the rural economy of our country, providing gainful employment to over 32 lakhs people in rural and semi-urban centres. Over 1.25 lakh handlooms and 3,338 power looms in the country are engaged in pure silk weaving. The annual production of silk fabrics is of the order of 390 lakh square metres. At present the silk industry is mainly centralised in the Southern States of Karnataka, Tamil Nadu, Andhra Pradesh, UP, Bihar, West Bengal and Assam..

Indian silk industry has played a vital role on the export front. The export of silk textiles incr ased significantly from Rs. 35 lakhs in 1958-59 to Rs 6.37 crores in 1968-69. The export of natural silk goods shot up to Rs. 17.42 crores in 1969-70. The export value of silk goods was of the order of Rs. 8.31 crores in 1972-73, as against Rs. 7.15 crores in 1971-72. Variety-wise, dress materials fetched Rs. 2.55 crores of foreign exchange while silk scarves earned Rs. 1.88 crores during the year.

The export of silk goods during the period April to June, 1973 was of the order of Rs. 2.57 crores as against 1.59 crores during the corresponding period in the previous year.

A working group for formulation of the Fifth Plan for silk Industry has already recommended an export target of Rs. 21 crores of silk goods by the end of Fifth Five-Year Plan. It is estimated that the country will be able to export silk goods worth Rs. 87 crores during the total period of Fifth Plan, which in turn may give a big boost to the silk industry and the rural economy dependent on it.

STEPS TO EASE WATER FAMINE IN CITY

Mysore, April 29

Municipal Administration Minister D. K. Naicker told newsmen here yesterday that all efforts were being made to ease the water supply situation in the city, which was hit by water-famine.

The Minister, who arrived here on Saturday, held discussions with the officials and legislators regarding the water scarcity in the city.

He said efforts would be made to secure three or four 50 hp. diesel pump sets, either from the military authorities or from some private agencies, to pump water from river bed into the feeding channel at K.R. Sagar.

He had instructed the officers to secure 40 more lorries, in addition to the 12 lorries already supplying water in the city, and to instal pump sets within a week to the five borewells at Bannimantap, Kailasapura, Kesare, Gokulam and Narasimharaja Mohalla and supply water, Naicker said.

He had also asked the Municipality to desilt and clorinate all private wells at the cost of the Municipality and make them useful for the general public.

The Minister, however, did not say when the situation would ease.

Mysore City, which requires 120 lakh gallons of water every day from Krishnarajasagar, is now getting only 35 to 40 lakh gallons per day. The flow in the feeder channel has come down from about 7 feet to hardly 3 feet due to fall in water level in the reservoir.

Pipe lines are being laid from the emergency pumping station which is located on the bed of the river at K.R. Sagar to the Hongalli pumping station. This work is expected to be completed in about 20 days when the Hongalli station will be getting an additional 60 lakh gallons. When the work on the emergency pumping station is completed, Mysore City will not face water scarcity in future, it is said.

Municipal Commissioner S. Swatantra Rao, Executive Engineer Siddalingiah, PHE Executive Engineer D. Siddaramiah and Water Works Superintendent Jagadish and their staff are working round the clock to overcome the crisis.

Cong. Candidates For Council

The Congress President yesterday announced in Delhi the names of six party candidates for the biennial election to the Karnataka Legislative Council.

The candidates are : Messrs Kalyan Rao Maruguthi, N.N. Kallannawar, B.N. Narayan, F.M. Khan, R. Jagirdar and S. Sivappa.

Minister Non-Committal On Corpn. Status

Mysore, April 29

Municipal Administration Minister D.K.Naicker yesterday refused to commit himself whether Mysore City would get the status of a corporation or elections would be held to the Municipal Council itself.

Addressing a press conference, he said that the State Cabinet had approved the Uniform Corporation Bill and it was at the stage of introduction in the Legislature. He did not, however, say whether it would be possible to introduce the Bill in the current session.

The Bill provided declaring elegible municipalities into corporations. If this Bill was referred to the Joint Select Committee by the Legislature, the Government could even hold elections to the Municipal Council alone, Sri Naicker said.

Forming of an advisory board until then to the Municipality would be considered by the Government if it felt necessary.

The Uniform Corporation Bill did not provide for nominations and hence there was no question of nominations at all if a corporation was formed for the city, he said.

Cong. Panel On Economic Situation

The AICC President yesterday appointed a 12-member high-powered committee to take a fresh look at the basic policies and programmes of the party in the economic field and prepare a report. It will submit its report to the working committee in Delhi on May 24.

The Congress Working Committee adopted a resolution yesterday expressing concern over the grave economic situation.

It also decided that the Congress President should make a probe into allegations against partymen in authority regarding their integrity and misuse of authority.

The committee asked Pradesh Congress committees aud district units to organise between May 15 and 31 conferences and rallies to advance the party's programme and to meet the Opposition challenges.

Some members criticised the party leadership strongly for not providing clear guidelines to the rankand file to meet the present political and economic crisis and for going back on the declared policies.

"MY SORE CITY"

Sir,

Residents of this once beautiful city would feel dismayed by the blazing announcements by the governmental spokesmen how by developing industries in and around this city the millenium would be brought to its doorstep. It is hardly realised how sore are its residents at present, not because there is not much industry around, but because how fast the civil services are deteriorating and how near the chaos that became Bangalore,as a result of lack of foresight and planning, is threatening to engulf this city.

The City Improvement Trust Board reveals in scratching outlying areas of the city, making a few lanes and calling them roads and selling so-called building sites without seriously developing the areas. A few hundred sites are developed at a time with meagre water supply condemning the residents to damnation for years by not handing over the areas to the Municipality. The Municipality continues to collect all taxes declaring how they cannot budget for maintenance charges on assets not on their own books.

So many areas in the city lack a decent water supply. Till lately water was regularly to be collected from garden taps and taken inside homes because the mains lacked pressure. For the past few days the situation has become scandalous. There has been no supply of water whatsoever to many a home in the city for some days.

Why cannot a public debate be organised in the city by the Institution of Engineers or the Rotary to bring home to the authorities the magnitude of the problems and its sore neglect ?

MY SORE CITY

Sir,

It was heartening to learn from the Municipal Administration Minister's announcement that all efforts were being made to ease the water supply situation in the city after a real crisis had developed. It was not just scarcity but it was an unprecedented famine.

What has remained unexplained, however, is why the proposal of the local administration forwarded to Government for sanction in this behalf for the supply of pumps to horness the borewells got ready months ago, have gone unheeded all this time.

Residents of Bannimantap are beholden to Sri Vijayaraghavalu who came to their rescue by unhesitatingly placing a truck mounted with a huge cask to fetch water from the canal and the Vanivilasa Water Works and making trip after trip since Friday last and supplying water to the needy.

Good nature has its own reward and we are all grateful to Sri Vijaraghavalu.

WATER SCARCITY

Sir,

It is really distressing to see people moving about in the city searching to get water. Even Government and other employees have to cut short their duty hours and carry water for their house hold purposes. I hope the crisis is solved soon. If it is not done and if the authorities take the matter lightly, the problem is going to be really a serious one.

IRRESPONSIBLE LOT?

Sir,

Apropos Sri Madhava Rao's letter (30 April) we are indeed grateful to Sri Vijayaraghavalu for his help. People of his social sense are indeed few. Perhaps this is the only instance in Mysore of a citizen distributing water to people of his locality though, I suppose, there are many with means at their disposal to do likewise had they had the same social sense that Sri Vijayaraghavalu has so quietly shown.

At a time like this, would it be improper for citizens to question the authorities that be for their failure to carry out their duty (for which, lest they forget, the Government i.e. the Public pays them handsome salaries)? Whatever excuses that they may have, we have been subjected to water famine which could have been avoided had they acted in good time instead of rushing about here and there now. Can we not charge them with dereliction of duty? What are we going to do to make sure that they will carry out their responsibilities towards us in the future? "People get the Government they deserve"- if we, the People, do not demand responsible Public Servants we will only get an irresponsible lot.

READERS' FORUM

SELFISH ?

Sir,

This is with reference to Sri G. Menezes' letter which appeared under the caption "Irresponsible Lot" in "Samachar" on 1st May. Indeed Sri Vijayaraghavalu deserves praise for doing true social work of distributing water to the people of his locality. But why others, who speak of irresponsible public servants, cannot follow the example of Sri Vijayaraghavalu?. There are instances where tenent-students who are preparing for examinations have been denied water by their landlords although the latter keep stored fully water in their tanks.

BEWARE OF CHEATS

Sir,

Some persons from a northern State, saying that they are pawn-brokers, are operating in the city cheating the public by offering to purchase or sell old coins and jewels. They narrate stories of finding jewels in pots while removing trees and offer to sell pieces of the gold jewellery they claim to have found. But, these pieces will not be genuine gold and they cheat by selling them at an exorbitant rates. I am one of those who believed them and bought a piece to only realise later that I have been cheated by these persons. Therefore, I request any one coming across such persons to refer the matter immediately to the police.

The press had been expanded considerably during the last two years. At present there were 10 high speed offset machines. Binding section was being mechanised. One automatic flow line machine which can gather, stitch and cut the books, which was the first of its kind in the State, had been installed. There were plans to add a photo copying Kannada machine which would eliminate hand composing and also an offset rotary, the Joint Director said.

Lok Sabha Rejects No-Trust Motion

The Lok Sabha, in the early hours of today, rejected the no-confidence motion moved by CPM leader Jyotirmoy Bosu by a voice-vote after eleven hours of discussion on the railway strike. The debate lasted till 1-30 a.m.

Intervening in the debate, Prime Minister Indira Gandhi categorically stated that the Government could not agree to the "exorbitant demands" of the railwaymen. While it had sympathy towards them, it could not isolate their problem from other sections of workers.

The Government, she pointed out, had agreed to most of the demands of the railwaymen.

The Prime Minister rejected the Opposition charge that the Government had provoked the strike. On the other hand, it had tried its best to avert the strike, Smt. Gandhi said.

The Government was looking into the entire wage structure, she added.

Apart from the night passenger leaving around 10 p. m., the authorities have also decided to operate a goods train from Mysore to Bangalore half-an-hour before the passenger. A similar goods train and a passenger train are expected to be operated from Bangalore to Mysore from today.

While the Chamundi Express had left this morning on time with over 200 passengers, the Mail from Bangalore arrived with over 300 passengers, an hour behind schedule. Women and children were among the passengers.

The attendance continued to be poor in the loco shed, booking office and goods shed. There was improvement in other sections, including the Divisional Office.

Three diesel trains had been operated to Najangud till this afternoon. Although there were no train the Mysore-Arsikere section was also normal, it was said.

City Cong. Blames D. C. For Food Muddle

Mysore, May 11

Sri D. Jayadevaraje Urs, President, City District Congress Committee, today blamed the Food Department officials, including the Deputy Commissioner, for "defective system" in food distribution and delay in introducing informal rationing in the city.

Addressing a news conference, he said that although the Government had given them a direction to abolish fair price shops and distribute foodgrains only through the co-operative societies, the officials had failed to implement the policy. These officials were hand in hand with the fair price shops, he charged.

The Deputy Commissioner, he said, had not issued licences and food quota to 20 new co-operative societies started in the city. Favour was being shown to fair price shops.

As the mill-owners of K.R. Nagar had gone back on their assurance to supply 25,000 tons of rice to the city, raids were conducted on them during last month and 12,000 quintals of paddy had been seized. If the Deputy Commissioner showed any relaxation to the mill-owners regarding the seizures made, the DCCwould protest to the Government, he warned.

The introduction of informal rationing from May 1 had to be postponed beacuse of the "irresponsible attitude" of the officials in the Food Department. Although the population of Mysore was only four lakhs, identity cards had been issued to 6.5 lakhs of people. The verification work was going on very slowly, Sri Urs criticised.

The City District Congress Committee discussed the food situation in the city on April 29 and had brought these irregularities to the notice of the Food Minister, Sri Jayadevaraje Urs said.

DASARA

He said there was no indication from the Government yet regarding holding of Dasara festivities this year. The DCC had proposed to form a citizens' committee to organise the festivities. It had also decided to form a cell regarding civic amenities for the public.

India's Unique Nuclear Technology

India is the first country to explode an atomic device underground, Dr. H. N. Sethna, Chairman, Atomic Energy Commission, said at Bombay yesterday.

The Meteorological Department announced yesterday it had recorded the nuclear explosion at 8-06 a.m. and it registered a force equivalent to an earthquake.

Scientists are both elated and puzzled about the reported absence of any radioactive fallout following the nuclear explosion. They say it suggests that the Indian AEC has developed the technology of peaceful nuclear explosives to such an extent that they can be exploded even at a fairly shallow depth without contaminating the atmosphere.

YAGNAKUNDA LIT BY MANTRAS

An ex-constable of the Poona intelligence branch yesterday lighted fire in a "Yagnakunda" by chanting Mantra (sacred hymn). The undergronnd nuclear explosion in Rajasthan desert on Saturday has produced an artificial hill, a most beautiful sight, which has come on the skyline from nowhere.

Giving an eye-witness account, Dr. Raja Ramanna, Director of the Bhabha Atomic Research Centre, said yesterday, "when the explosion went off there was termendous upheaval of earth, sand and stones but we watched from a distance of four kms. away".

"But as we got reports from the air monitoring section that there was very little (radio) activity we thought it would be possible for us to go nearer and we succeeded in going to nearly 100 metres away from the crater".

The crater, which has got to be measured, has got a radius of approximately 200 metres, he said.

No Political Motive, Sethna

Dr.H.N. Sethna, Chairman of the Atomic Energy Commission, said at Bombay yesterday that the timing of India's first underground nuclear test had been entirely left to him by the Government of India and that there was no political motiviation behind it.

He said that the decision to conduct the test onMay 18 was his and his alone and that the UnionGovernment had no hand in it. The May 18 test was the first conducted by India and it turned out to be successful. No previous experiment was carried out.

The test was carried out in the Pokaran range in Rajasthan desert, according to official sources.Sources said that the test site was about 150 km from the Pakistan border. The range runs between Jodhpur and Jaisalmer.

The decision to carry out a peaceful nuclear explosion was taken by India three years ago, Defence Minister Jagjivan Ram has said.

The Karnataka Legislative Council yesterday unanimously adopted a resolution congratulating the scientists and technicians of the Atomic Energy Commission on their historic achievement.

Bhutto's Reaction

Pakistan PrimeMinister Bhutto has described India's nuclear explosion as a 'fateful development' and a threat. But "Pakistan is determined not to the intimidated", he said.

Stress On Moral Education

Mysore, May 24

If education during the past 26 years after Independence had lost its meaning it was because of lack of moral and ethical teaching which was very essential for the growth of man, Swami Ranganathanandaji said yesterday.

Participating in the consecration of the new building of the Ramakrishna Institute of Moral and Spiritual Education, he said education was not expansion of schools and increased number of literates. Education was assimilation of ideas and spiritual growth.

Swami Ranganathanandaji said that 90 per cent of India's problems came from the educated people. It was because the education that was imparted to them was of quantitative and not of qualitative nature.

RISE IN LIFE EXPECTANCY

There has been a sharp improvement in the average longevity in the country. In 1946, the expectation of life at birth was 32.45 years for males and 31.66 years for females. Now it is estimated at 50.7 years for males and 49.3 years for females.

Due to successful implementation of various health programmes, there has been a reduction in the death rate. In 1941-50 the death rate was 27.4 per thousand and in 1971 it was 15.1.

Similarly, better medical facilities and improved medical care of mother and children have helped reduce the rate of infant mortality. In 1941-50, the infant mortality rate was 183 per thousand and in 1971 it was 114.8 and 77.5 for rural and urban areas respectively.

Another important factor is the reduction in the incidence of communicable diseases due to adoption of improved control measures.

The number of hospital beds has increased to 2,77,520 from 1,13,000 beds in 1946.

Government has taken steps to extend the medical facilities to the rural population. So far, 5256 primary health centres have been established in the rural areas.

England skipper Mike Denness had earlier declared their second innings at the overnight score of 213 for three. More than three hours' rain on the pitch helped Denness to set India to face the challenge. Only about 100 spectators were present when India started their second innings.

Readers' Forum

STOP THIS DECLINE

Sir,

Wherever our late revered highness Sri Krishnaraja Wadeyar IV went and wherever he saw anything beautiful in art, architecture, painting and civic improvement, he immediately saw that it was incorporated in his pet city of Mysore. As a result, Mysore became a model city and was hailed by all, including our revered Gandhiji, as the "Garden City of India" and capital of modern "Ramarajya".

Whatever may be the political ups and downs it is the duty of every Government that succeeds to see that these things of beauty, art and architecture are maintained in all its original glory. This is the policy of all advanced Governments in the west.

Unfortunately, there is a tendency to neglect the past on which the present and future has to be built. This premier city of Mysore, on which so much love and care was bestowed by the late Maharaja, is fast losing its color, which it should not.

Sri Krishnaraja Wadeyar, observing the illuminations of foreign palaces and buildings, got electrification of the whole palace, fort and temples done at a great expense and trouble. It is a sorry sight that there is no illumination for the past three or four years and the whole eqiupment is kept in a state of direspair. It is suggested that at least on important days the illumination may be maintained. This will attract tourists also.

Further the whole area in front of the palace has to be revamped and the garden maintained as before for the benefit of citizens as well as tourists.

Small things add to the beauty of the city. Why is it the lighting of the fountain in Hardinge Circle has been stopped? Why is it the fountain is working irregularly? Is it a great trouble to maintain this as it was being done all these years?

These are only examples of what could be done to maintain the dignity of this famous city. Anyone who is sympathetic and is in responsible position can easily think of other such things now neglected and see that they are reclaimed from oblivion and earn the gratitude of the past, present and future generations of the city of Mysore and of all visitors.

No Further DA Raise To NGOs

Bangalore, June 18

Finance Minister Ghorpade ruled out the possibilities of any further raise in the DA rates to State Government employees to bring them on par with Central rates.

The DA rates of the State Government employees were three stages behind the Central rates. To cover these stages, the State would have to incur an additional expenditure of about Rs. 15 crores per annum. This would mean a sizable cut in the plan target, he said.

Expressing serious concern over the repeated DA rise given to Central Government employees, Sri Ghorpade said that "it is most unfortunate the Centre has not taken the responsibility for the consequences of its actions".

The appointment of the second pay commission for the State Government employees would be announced by the end of this month, he added.

Delayed Monsoon To Affect State Badly

Bangalore, June 25

The delay in monsoon rains and the consequent 60 per cent power cut on high tension consumers which came into effect from yesterday has upset the industrial and agricultural activity in the State.

The administrative machinery has been already alerted to provide every possible relief to farmers affected by the failure of rains.

The five major Central Government undertakings in Bangalore have decided a drastic measure of a two-day lay off in a week or a three-hour working in a day and staggered weekly holidays because of the power cut.

Priority For Farming

Governor's Plea

Mysore, July 2

Agriculture should form the core of all regional planning, Governor Mohanlal Sukhadia said here yesterday.

Inaugurating the fiirst Asian symposium on regional planning and national development-organised by the Institute of Development Studies, Mysore University, he said that the most important sector in our economy, whose development could secure not only the greatest economic benefit, but could also give the widest coverage, was agriculture. Investment in agriculture could give us rapid returns, which could then be used for greater industrialisation.

Underlining the importance of regional planning, the Governor said that the role of regional planning in national development, the inter-connection between the two, and the place that the former should occupy, were matters of great concern to developing nations like ours.

Suggesting negative step in restricting the growth of cities, Sri Sukhadia said that while growth of cities might yield large economic gains, it brought in its wake problems which would remain for long after. Not only it depleted the countryside of its trained and educated man power, but it drew a good deal of investment into an over-saturated field to the detriment of other areas. In regional planning, the main concern was to bring about a harmonious development of all regions in the country, he pointed out.

It percolated down through the chains of command to the grassroots. Somewhere during this process of translating what was on the drawing boards to the village, there was a loss of momentum and thrust.

CIL And HAL In Goalless Draw

Mysore, July 8

Central Inspectorate of Electronics and HAL (senior), both of Bangalore, were concerned in a goalless draw in the first-leg semi-final of the Ideal Jawa Challenge Trophy Football Tournament at the Palace Grounds here yesterday.

Though the CIL outfit played a better game in the second half, they were unlucky. The face of the game which was brisk althrough saw some more brilliant passes by theHAL players in the first half. In the 12th minute HAL captain Sunderraj picked a pass from mid field and all that remained between him and the goal post was the goal keeper. But he just shot the ball into the waiting hands of CIL custodian Chinnababu. After this the HAL player though exchanged some excellent passes failed to score since they deliberated too much in the goal area.

The second half saw CIL players launching a regular attack on the HAL goal. HAL were really lucky when a header from Thiagaraj hit the post and thus saved them from gifting a goal to CIL. Amjad Khan of CIL lobbed the ball taking a corner kick. In attempting to head the ball clear HAL defender Thyagaraj deflected the ball inward. Luckily it hit the post and cleared.

CIL were lucky to miss another chance when Amjad Khan shot the ball just wide of the goal. He picked a pass from Munimara and kicked the ball powerfully but wide of the goal.

Action Against FP Workers

"Disciplinary action against the family planning field workers who refuse to work in the remote areas of the city such as Kyathamaranahalli, Kannegowdana Koppal, Asokapuram, Kumbara Koppal is the only remedial measure to popularise the family planning and to improve the standard of children among the uneducated masses" said Sri S. Swatantra Rao, Municipal Commissioner, who presided over the anniversary of the Family Planning Association of India, Mysore Branch, and distributed the prizes to the winners of the competitions held in connection with the "world population year 1974", on Sunday.

Planning From Village Level Must

Mysore, July 9

Professor Rannan Weitzs and his colleagues from Israel demonstrated the grass-root apporach to rural development in a workshop organised by the Institute of Development Studies, University of Mysore on July 6 and 7. The workshop was attended by a number of government officials of Karnataka, Kerala, Pondicherry, Tamilnadu and Central Government.

Laying special emphasis on rural employment, Dr. Weitzs said that economic theories taught to us and practised by economists are of little value as far as rural development is concerned. Societies suffering from mass poverty and increasing unemployment have to use unconventional approaches which economic theories do not offer. According to him, the problems of mass poverty and unemployment can be tackled succeessfully only if planning emerges from farm and village levels and the whole social system is geared to production with agriculture and allied activities as the basis.

Dr. Weitzs felt that countries like India have the great advantages of abundance of human resources. This abundance should not be considered as a drag on its economy. In fact it should be considered as a valuable resource capable of transforming the Indian economy into a prosperous and dynamic economy. Dr. Weitzs demonstrated the grass-root approach which can be used in a modified way in India to achieve this objective.

Dr. V.K.R.V. Rao, Director, Institute of Social and Economic Change chaired the workshop.

Sangha Secretary P. R. Thippeswamy introduced the artists. Sri Kukke spoke. President H. R. Ganganna welcomed the gathering. Sri N Gopalan read the messages. Sri Y. Nagaraju proposed a vote of thanks.

The exhibition will be open daily from 9 a.m. to 12 noon and 4 to 7-30 p.m. to the public free.

FEATURE

GUIDING A BLIND PERSON

A blind man stands at the cross-roads, a white stick in hand, waiting for some one to help him on to the other side.

He is really at "cross-roads" for not only has he to cross the road without being hit by passing cars and other obstacles but he also has to get his need across to the public. He stands there waiting for some one to offer him a helping hand.

Many passers-by move on without seeming to notice him. Perhaps they have noticed him but are uncertain as to how to react. They would like to help him get to the other side of the road. But how should they do this? Should they take him by hand? Should they hold the tip of his white stick and lead him across as one takes a dog on a leash? They are not sure what would be the proper thing to do.

THE RIGHT TECHNIQUE

In order to take a blind man successfully across the road, the best way is to offer him your arm. If he holds you at the elbow, you will find that you are standing a few inches in front of him. The movement of your body as you walk along is an indication to the blind man how he should adjust his own movements. For instance, if you step off the kerb, he will know from the movement of your body that he too must be prepared to take a step down. Then again, if you take a wide step when crossing a puddle of water or may be a dirt heap, he too will realise that there is some obstacle which must be by-passed and he will react accordingly.

It always helps a blind person if you softly indicate to him the obstacles in the way. Tell him there is a dirt heap and he must take a wide stride, in order to prevent himself from stepping into it and soiling his shoes or clothes.

Don't, under any circumstances, push the blind person in front of you when guiding him. Your effort and good intension will bear little fruit if, through your mishandling, he trips and falls over some stone.

But perhaps you have inhibitions about a blind man holding your arm. If this is so, then take him by thehand. Believe me, there are few occasions on which your gesture of giving a man a hand will be more greatly appreciated.

Rationing In City Demanded

Mysore, July 10

The Mysore District Council of the Communisty Party of India has strongly criticised the "deteriorating" food supply system in the city and urged the Government to immediately introduce rationing in Mysore. It has also urged the Government to rush food stuffs to rural areas in the district.

The party, which met recently under the presidentship of Sri P. Raman, Assistant Secretary, State Council, took a serious view of the ordinances promulgated recently freezing wages and dearness allowances of workmen. It described the ordinances as "thoroughly anti-working class and anti-people" and called upon the working class to raise a strong voice to protest against them.

It also urged the State Government to order immediate elections to the Mysore City Municipality. Sri M. S. Krishnan addressed the meeting.

Credit Control To Be Tightened

The Union Government is finalising a seriesof steps to immobilise Rs. 1,000 crores from circulation to check inflationary tide.

The measures taken so far by way of compulsory savings by the salaried class and composing dividend freeze are estimated to immobilise about Rs. 500 crores. The new proposals would prevent another Rs. 500 crores from the total money circulation.

Finance Minister Chavan has issued a directive to the nationalised banks, laying down guidelines to exercise tight credit control.

Sri Chavan told the Parliamentary Consultative Committee of his Ministry that the Government would soon come out with a package of measures to check inflation.

Another scheme of compulsory savings plan for self-employed and other sections of the community was being formulated. The ordinance may be promulgated this week in this connection.

Defending the two recent ordinances, he said these measures had been adopted as an emergency response to the grave financial situation prevailing in the country.

Mysore, July 10

He emphasised that public relations was a phenomenon and necessity of our times.

Co-Ordinate Research With Production

Mysore, July 13

Unless experimental production units are associated with food research centres, at least for critical products, and a distribution system established by the government, food technology was bound to remain irrelevant to the needs of the large majority of people, said Dr. D. P. Pattanayak, Director, Central Institute of Indian Languages on Thursday.

He was addressing the valedictory function of the M.Sc. Food Technology Course at the International Food Technology Training Centre of Central Food Technological Research Institute.

Properly coordinated food research could bring about change in the food habits and also serve a social purpose by providing nutrient food and fodder.

Presiding over the function, Sri D. V. Urs, Registrar, Mysore University, urged the students that the knowledge they acquired should be utilised, disseminated and made available to the people when they go back to their respective countries.

Solar Energy For Food Processing

Mysore July 19

The possibilities of using solar energy efficiently and economically in food processing, particularly in a tropical country like India, were highlighted by Dr. A. Ramachandran, Secretary, Department of Science and Technology, yesterday.

Inaugurating the three-day third National Symposium on Refrigeration and Air-Conditioning at the CFTRI, he said solar energy could be used to produce both heat and cold. It was of particular utility for food processing because farms, animal sheds, barns and processing factories usually occupy large areas exposed to sun's radiation. Simple, blackened, corrugated sheet roofs could be used as heat collectors and the energy used for drying foodgrains, spices, tea or coffee.

Indirect solar heating had been found to yield products of better quality than those directly sun dried, he said.

Sri D. J. Balaraj, Development Commissioner, who presided, explained the scope for refrigeration and air-conditioning processes for perishable articles in the State. Fruits and vegetables were grown in about 2. 75 acres. There were nine milk dairies with 1.17 lakh litre milk production now. In the Fifth Plan, it was proposed to increase their number to 11 and milk production to 6.11 lakh litres. Government had provided cold storage facilities in 44 centres.

Welcoming the gathering, Dr. B.L. Amla, CFTRI Director, said 180 delegates were participating in the symposium. Dr. A.K. De, Director, Indian Institute of Technology, Bombay, spoke. Dr. H. Nath, Director, Defence Food Research Institute, proposed a vote of thanks.

No Delay In Urban Ceiling

The All India Congress Committee yesterday approved the economic policy resolution endorsing the ten-point programme to tackle inflation outlined by Prime Minister Indira Gandhi.

Winding up the debate, Defence Minister Jagjivan Ram said the Government would not delay any further the imposition of urban and land ceiling. He ruled out demonetisation.

Sri Jagjivan Ram called for a "social boycott" of hoarders, black-marketeers and profiteers, as the serious problem created by them could not be tackled by Governmental action alone.

Chief Minister Devaraj Urs, who seconded the resolution, described the programmes aimed at fighting poverty and inflation as "revolutionary".

CM URGES URBAN CEILING

He urged for early action on a ceiling on urban property. It was necessary to limit building activities to divert scarce material like cement and steel to manufacture agricultural equipment, he said.

Sri Urs wanted dehoarding and procurement of grains to be taken up simultaneously. **There should be control in the production and distribution of essential goods.**

The resolution stressed the need for a well-organised distribution system for essential commodities, enactment of early legislation for imposing ceiling on urban property and maximising production of popular varieties of cloth and a cess on finer varieties.

The AICC "whole-heartedly welcomed" the ordinances recently promulgated.

UNTIMELY SCHEMES

Sir,

We are passing through difficult times facing scarcity and shortages in almost everything. There is shortage of food and agricultural products, shortage of power—both coal and electricity, shortage of water due to vagaries of monsoon and also shortage of housing in cities, all leading to a financial crisis and a very adverse economy. On the other hand, we see ill-conceived schemes, mismanagement, corruption, hoarding and adulteration rampant throughout the country.

The plans of the Mysore City Municipality and the City Improvement Trust Board, in execution as well as proposed, may be cited as very good and fitting examples of some such ill-conceived schemes.

In the Dhanvantri Road many houses were demolished and the sites have been left vacant for the last few years. The shops behind Visweshvaraya Bhavan were demolished many years ago and the vacant sites have become a tonga stand.

Recently the Makkaji Chowk scheme has been launched. It involves demolition of shops and houses displacing persons who are carrying on their business. Number of employees in these establishments have to lose their livelihood.

On the other hand, the Municipality or the CITB has to pay huge compensations to the owners, meet the cost of demolition of these buildings, form layouts and incur heavy expenditure and meanwhile lose taxes from the existing buildings. This means an unimaginable loss.

Instead it is well desirable if the Municipality or the Trust Board invest the same amount in building extensions and provide more housing facility and construct shops on vacant government lands. This investment will be remunerative also. Even now it is not too late to retrace the steps and revise the decision.

Vol. XXIV MYSORE SATURDAY JULY 27 1974 No. 288

Delegation To Press For Dasara Celebrations

Mysore, July 27

A delegation from the city lead by Sri F. K. Irani will soon meet the Chief Minister to urge the Government to revive Dasara festivities in Mysore at least from this year.

A citizens' meeting convened by the Chamber of Commerce and Industry yesterday, while welcoming the announcement of Sri Azeez Sait, Chairman, State Tourism Development Corporation, that traditional Dasara would be held in Mysore this year decided to send a delegation to press for holding the festivities including the exhibition. Sri M. K. Lingiah will be the convener of the delegation.

Sri Irani, Chamber President, regretted that Mysore City which was known for its tourist attractions like the Palace, Palace Garage, Stables and Dasara festivities, was gradually losing its importance with the fading away of these attractions. He wanted the Government to take over the Jagan Mohan Palace so that at least it was retained as an Art Gallery.

Sri M.K. Lingiah charged that the State and Central Governments were showing a step-motherly attitude towards the city. Many of its demands like broad gauge and Nehru Loka had been kept in cold storage. If the Government failed to respond to the public demand to hold the Dasara from this year, they should protest by observing a bundh, he suggested.

WARNING AGAINST CUTTING TREES

The City Municipal authorities yesterday handed over three persons to the police when they were cutting the branches and removing the bark of avenue trees in Vani Vilas Road and Manandavadi Road.

The Municipal Commissioner, Sri S. Swatantra Rao, in a press note said that any person caught while cutting the trees or removing the bark or skin of the trees in the city would not only be subjected to strict legal action but would be paraded in the streets handcuffed.

New Levies To Yield 232 Crs.

Record Taxation In 74-75

Cigarettes, paper, bulbs, superfine and cotton fabrics, cement, automobile tyres, rayon, synthetic fibres and yarn, pig iron, plastics, paints and varnishes, copper and copper alloys and zink are the articles on which Finance Minister Y.B. Chavan has levied new imposts in the supplementary budget presented to the Lok Sabha yesterday.

The new taxes will yield Rs. 232 crores in a full year and Rs. 136 crores in the remainder of this financial year. The bulk of the Finance Minister's revenue is in indirect taxation, mainly excise duties on a wide range of goods.

Common varieties of printing and writing paper, newsprint, handmadepaper and board, tyres of bicycles, animal-drawn carts, mopeds, scooters and motorcycles have been exempted from the new levy.

Sri Chavan has also proposed a seven per cent tax on the gross interest earned by scheduled banks on loans and advances, which will raise the cost of borrowing by one per cent.

The total taxation for 1974-75 by the two budgets have touched a record figure of Rs. 444 crores. The highest taxation was in 1963-64 (Rs. 290 crores), in the wake of the Chinese aggression.

Control Admissions To Colleges

Mysore, Aug. 1

Dr. (Smt.) Saraswathi Rau, an eminent educationist, said here on Tuesday that higher education should be restricted to only those who had the standards and the aptitude required for advanced education.

Speaking on the problems of higher education in India at the Rotary Club (West), Dr. Rau said that one possible explanation for the falling standards and growing indiscipline in colleges would be that a large majority of students admitted to colleges did not possess the standards nor the aptitude for higher education.

Rotary President P. V. Rao welcomed the gathering and Sri H.S. Shivanna proposed a vote of thanks.

NEW CENTRAL TAXES CRITICISED

Mysore, Aug. 1

"The Finance Ministry seems to be running riot", this was the reaction of former Union Minister M. S. Gurupadaswamy to the supplementary budget. The tax proposals would definitely add to the present inflation and bring about high-cost economy, he said.

Hayagriva Cult In Karnataka

Mysore Aug. 5

"Hayagriva the primordial preceptor or Guru is really an Avatara of Vishnu, and chronologically is very much earlier than the commonly known ten Avataras. There are references in the Vedas and the Upanishads to Hayagriva. Even Saraswathi, the Goddess of Learning, is said to have obtained enlightenment from Hayagriva", said Sri P. Gangadhara of Manasagangotri, addressing a gathering at the Sarva Bhasha Saraswathi Sangha recently.

That Hayagriva worship was specially prevealent in Karnataka is specifically mentioned in the Vishnupadottara Purana, a work of about the 4th century A. D. There is an idol of Hayagriva in the Shankara Mutt at Sringeri, he said.

Earlier, Prof. M. V. Jambunathan, Sangha President, welcomed the gathering.

READERS' FORUM

Sir,

SHOPPING COMPLEX

I fully concur with the views expressed by Sri Giridhar Rao in the Readers' Forum of your daily on July 24 on "Untimely Schemes". Sri Rao has very rightly pointed out the untimely nature of some schemes launched by the Municipality and the Trust Board.

Being familiar with every part of Mysore City and as a person interested in city and metropolitan planning, I may add that the K.R. Circle, Gandhi Square, Sritampet, Sayaji Rao Road and the Makkaji Chowk together form the core and the foremost business and shopping centre of the city. This centre is already congested and the road network in a major part of the area is not able to cope with the traffic.

In most of the urban towns and the cities, shopping complexes and centres are usually located quite away from the already existing centres in the city. This is in strict conformity with the elementary principles of town and metropolitan planning, to avoid the possibility of increasing the congestion by creating additional bottlenecks for traffic.

The Makkaji Chowk Improvement Scheme, providing for a shopping complex with its multi-storeyed building in the busiest part of the city, is not only strange and surprising but also totally opposed to all principles and standards of modern city and metropolitan planning of which both the planners and the engineers seem to be totally ignorant.

It may be suggested that the ideal location for a shopping complex will be i) the large field in front of the Government Training College, ii) the Curzon Park or iii) the large field of Government Guest House adjacent to the arch.

The selection of one of the above sites for a shopping complex will save the CITB and the MCM from investing huge amounts on acquisition in the Makkaji Chowk, expenditure on demolition of buildings and formation of layout, the problems arising out of congestion of traffic and the relatively high investment on construction in Makkaji Chowk because of high water table and the water-logged soil.

Crop Loss 8 Crs. In District

Rural Cong. Chief's Plea For More Relief

Mysore, Aug 7

There was a loss of five lakh tons of jowar and ragi worth about Rs. 8 crores in the district due to delayed monsoon, District Rural Congress Committee President S. Puttaswamy and Secretary K. Kempaveere Gowda told newsmen yesterday.

Addressing a press conference, Sri Puttaswamy said that out of 96,000 acres jowar crop had failed in almost 80,000 acres while in about 10,000 acres the yield would be 25 to 75 per cent. As regards ragi, the crop had failed in almost the entire 50,000 acres. The continuous drizzles for the past few days had affected mulberry crop also.

Urging the Government to intensify relief works, he said relief works had not started in all the villages. There was a feeling that the relief provided was not adequate. The wages paid for PWD works were less compared to the quantum of work.

The Committee which met yesterday reviewed the position in the district and decided to send a delegation to meet the Chief Minister and other Ministers on Aug. 11 or 12 to apprise them of the situation, the President said.

DASARA OPPOSED

Sri Puttaswamy said that it might not be desirable to hold the Dasara celebrations this year in view of the drought condition in the district.

The district political conference of the party would be held during the second or third week of September in Mysore, he added.

Foster Interest In Music

Sukhadia's Call

Mysore, Aug. 12

Governor Mohanlal Sukhadia called upon music teaching institutions to foster interest in classical music and help to maintain its discipline and purity of standard.

Inaugurating the three-day silver jubilee celebrations of the Ayyanar College of Music, he said it was possible to take a short cut to popularity by making classical music easy and by mixing it up with less rigorous way of expression. But momentary popularity was nothing when compared to the noble task of preservation of an ancient and profound cultural expression.

Sri H. V. Srirangaraju, Director of Public Instruction, who presided, wondered how the present method of college education could turn out proficient musicians and suggested the revival of the "Gurukula" system which was ideal for teaching music.

Former Principal of the College, Prof. V. Ramarathnam, was honoured on the occasion. Vidwan Ramarathnam urged the Government to make music an optional subject at higher secondary level.

Sri Srirangaraju unveiled the portraits of late T. Chowdiah, founder of the college, and Sri H.L. Lakshman.

College President S. P. Ranganathachar welcomed the gathering. Sri H. T. Narasimha Murthy read messages. Principal K. J. Venkatachar read a report. Sri H.L. Srikanta Murthy proposed a vote of thanks.
